

The Danube Transnational Programme strengthens joint and integrated approaches to preserve and manage the diversity of natural and cultural assets in the Danube region, as a basis for sustainable development and growth strategies. Moreover, the programme envisions investing in the creation and/or maintenance of ecological corridors of transnational relevance in the Danube region. One of the specific objectives covered by Priority 2 is to foster the sustainable use of natural and cultural resources, as well as heritage.

**ISTER: ConnectIng hiSTorical Danube rEGions Roman routes
(01.07.2020 – 31.12.2022)**

The ISTER project, implemented under the Interreg Danube transnational program, addresses the challenge of Roman heritage discontinuity. The project tackles the territorial dimension of the Roman Routes, as a contiguous transnational element that passes DR states' borders and provides a relevant scale for exchange and joint development. Therefore, ISTER's main objective focuses on rediscovering and revitalizing the ancient Roman Roads Network along the DR as a key driver in promoting territorial development based on sustainable use of cultural and natural heritage.

ISTER is leveraging on three key assets to increase local attractiveness:

- Adopting a multi-layered governance chain aimed at strengthening knowledge framework and the institutional capacities of DR actors through capacity building and collective the knowledge mapping
- Using advanced tools and technologies for enhancing non-physical accessibility, visibility and valorisation of Roman routes and settlements network, laying the foundation for a thematic cultural route based on Roman heritage with a narrative function, reviving ancient assets and promoting non-renewable and fragile, but yet unexplored and unexploited Roman legacy
- Acquiring the shift from old policy approaches (protection through isolation) to new, integrative methods for improving the policy and regulatory framework in Danube crossed-regions

PARTNERSHIP

27 project partners
16 financing project partners
11 associated strategic partners

BUDGET in Euro

Overall: 2 067 958.95
ERDF Contribution: 1 663 585.1
IPA Contribution: 94 180
